THE WOODLEIGH RESIDENCES

Widely known as the “future Bishan”, the Bidadari Estate Master Plan envisions it as a distinctive and sustainable tranquil city-fringe district with world-class infrastructure.

With the upcoming regional 10 hectare park just announced, Bidadari will be a new bio-diverse sanctuary for nature enthusiasts.

Features include Singapore's first underground service reservoir, ensuring regulated drinking water supply and pressure for the district, a play area with a landmark 5m-tall treehouse and two 5,000 sq m lawns along with walking, running and cycling trails.

Complete with lifestyle amenities, close proximity to renowned schools, and connectivity that takes you places – Bidadari is now one of Singapore's most coveted locations to live in.

An aerial view of a modern residential complex. On the left, a tall, light-colored apartment building with balconies stands. In the center, a large, curved swimming pool with blue tiles is surrounded by lush green trees and a paved walkway. A small, modern building with a green roof is nestled among the trees. In the background, a dense forest of green trees separates the complex from a city skyline visible in the distance under a blue sky with light clouds. The overall scene is bright and sunny, with a sense of a premium, nature-integrated living environment.

at one with nature.
